Hydro Massage Table AF-3500

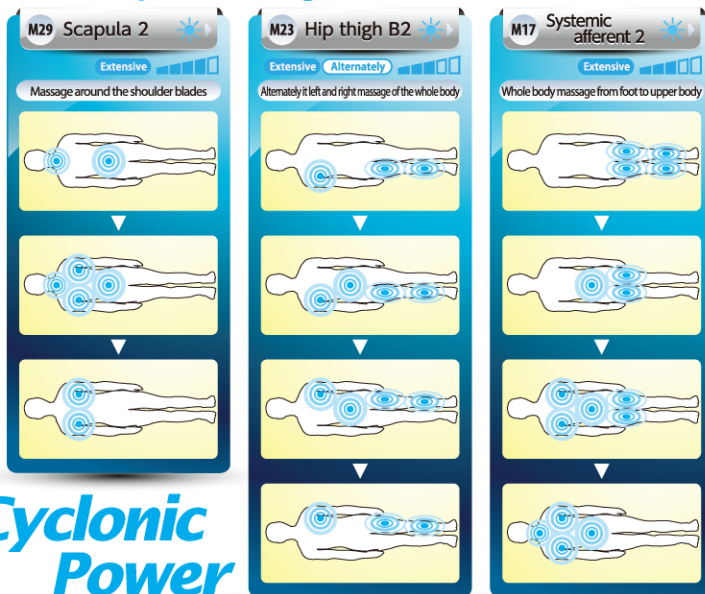

Realizes Maximized Water Power and Minimized Energy Loss

- Equipped with a power saving mode program to reduce electricity charges by 25% (comparison with our previous product).
- Water pressure stimulation produced by strong swirling and cyclone currents massages the entire body.
- A total of eight screw nozzles of three types and five variations produces water stimulation and water pressure vibration stimulation.
- A wide variety of programs employing various cyclone currents created using individual nozzles or combinations of nozzles are available for the entire body.
- Made-to-order water massage therapy is available with a hood covering the head to ensure privacy (optional).
